

For the first month of the program (June 1 snapshot date and June 15 reimbursement claim deadline), all of C Spire's EBB customers will be new, so the initial forecast will cover 100% of C Spire's EBB customers. In each subsequent month, C Spire will prepare a forecast estimating the total reimbursement for the newly enrolled customers. This will be based on C Spire's best estimate of the average reimbursement amount claimed per customer. Together with

the reimbursement claim for existing subscribers, which will have the actual reimbursement amounts for each customer, C Spire's monthly forecast will enable USAC to project the total reimbursement for all of C Spire's customers in a given month.

C Spire is pleased to make this commitment as a condition of the Commission granting the requested waiver relief. Should the Commission require any additional information, please contact undersigned counsel directly.

Respectfully submitted,
